CLEAN SLATE

Start with Waste. Here's How:

1. DROP IT OFF

Bring in scrap materials, offcuts, or past prototypes you no longer need.
 Place them in the Clean Slate Cart. Label them if you want to share a backstory.

2. PICK SOMETHING UP

Take any materials you like. Everything is free and up for grabs.

3. DESIGN SOMETHING NEW

Use only reclaimed or found materials to make a small project: a zine, prototype, tool, sculpture—anything!

4. SHARE YOUR WORK

Scan the QR to upload a photo + short caption like: "This used to be a cereal box."

5. SEE THE TRANSFORMATIONS

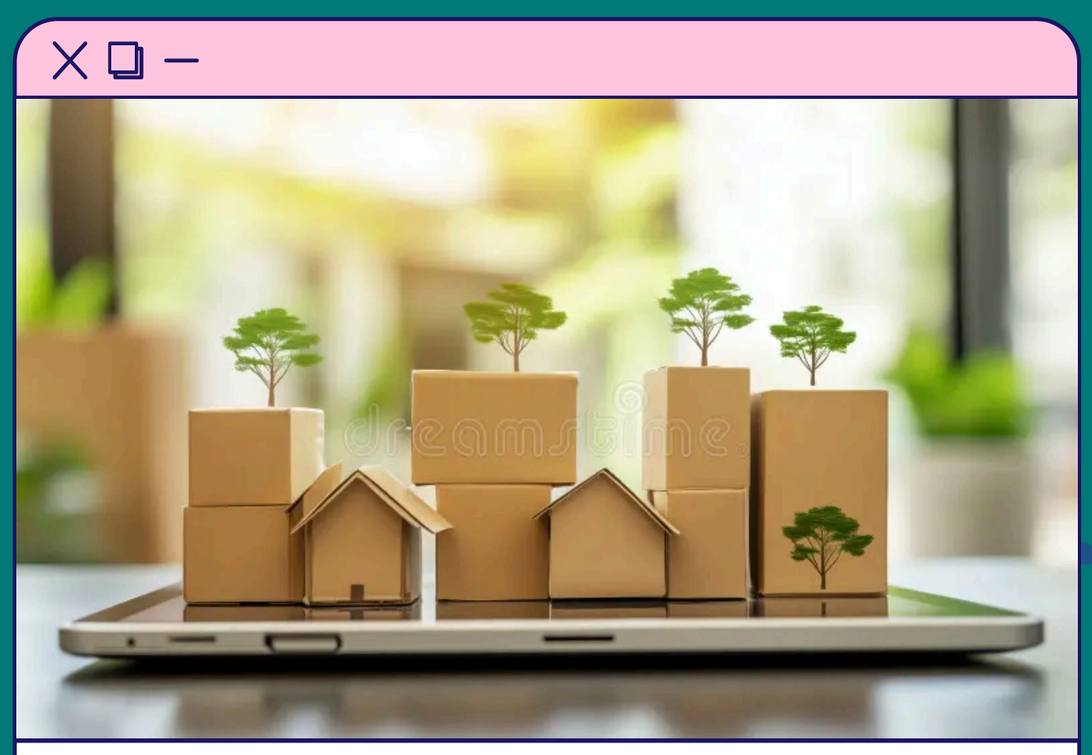

Check out the digital archive, wall display, or @cleanslate.design to see what others made.

SCAN QR CODE BELOW

TO SHARE WHAT YOU'VE MADE!

ADD A PHOTO AND SHORT CAPTION

A brief description of what this used to be “This used to be a bottle.”

ADD THE HASHTAG #RESOURCERESCUE

TO BE FEATURED ON OUR SOCIALS!
